FERNANDO GHIBERTI

Senior Full-Stack Engineer — React · Next.js · Node.js · TypeScript

Location: Vinhedo, São Paulo – Brazil **| Phone:** (11) 99618-6115 **|**
Email: ghiberti85@gmail.com | **LinkedIn:** https://linkedin.com/in/fernando-ghiberti

SUMMARY

Senior Full-Stack Engineer with 8+ years building scalable web applications and leading front-end architecture decisions. Deep expertise in React, Next.js, Node.js, and TypeScript — delivering measurable outcomes: 38% faster load times, 27% higher conversion rates, and 50% faster component delivery through a React design system. Experienced Tech Lead driving cross-functional teams, aligning with product and marketing stakeholders, defining technical roadmaps, and mentoring engineers in high-output agile environments.

SKILLS

Front-End: React.js · Next.js · TypeScript · Tailwind CSS · Material UI · Styled Components · Storybook · Redux · Zustand · Context API · Vite · React Query
Back-End: Node.js · Nest.js · Prisma · PostgreSQL · MongoDB · GraphQL · REST API · JWT · Redis · Clean Architecture · SOLID
AI & Automation: LLM Integration (OpenAI · Claude · Groq) · Multi-Agent Pipelines · AI-Assisted Development · N8N Automation
Testing & QA: Jest · Cypress · Lighthouse CI
DevOps & Infrastructure: GitHub Actions · Docker · AWS (S3, CloudFront) · Vercel · Cloudflare Pages · CI/CD · Azure DevOps · Turborepo
Leadership & Practices: Tech Leadership · Mentoring · Code Review · Technical Roadmap · Hiring & Performance Management · Agile/Scrum · Accessibility (ARIA) · Observability

PROFESSIONAL EXPERIENCE

PARAMOUNT — LTIMINDTREE (US, Remote)
Senior Software Engineer
Jul 2026 – Present

- Contributing to high-traffic entertainment and sports platforms for CBS Sports, engineering frontend and backend features across CMS, advertising technology, and analytics systems.
- Developing CMS-driven content experiences and advertising technology integrations using React, Next.js, TypeScript/JavaScript, and Node.js.
- Supporting analytics tooling, event tracking, and observability pipelines to monitor platform health and user engagement at scale.
- Collaborating cross-functionally with engineering, marketing, analytics, and product teams on performance optimization, production operations, and frontend architecture using AWS, Material UI, and REST APIs within CI/CD-driven workflows.

+A EDUCAÇÃO (Brazil, Remote)
Senior Full-Stack Engineer & Tech Lead
Aug 2022 – Jun 2026

- Drove CMS platform migration from HubSpot to Duda, delivering 50%+ reduction in annual tooling costs, improving performance and marketing team autonomy across 22 websites.
- Designed a React + Tailwind Design System with 80+ reusable components in a Turborepo monorepo, documented in Storybook, accelerating landing page delivery by 42% across 22 marketing websites.
- Achieved 38% improvement in LCP — reaching Core Web Vitals green tier — via Next.js SSR,

Tailwind CSS optimization, lazy loading, and static asset delivery via AWS S3 + CloudFront CDN.
- Led and grew a frontend team from 3 to 5 engineers across platforms handling 10M+ annual visits, owning technical roadmap, code reviews, mentoring, and hiring decisions.
- Engineered high-conversion form flows with React, Formik, Yup, and Axios — increasing conversion by 27% and reducing abandonment by 25% — and built React dashboards integrating Google PageSpeed and LLM APIs for automated SEO and accessibility auditing.
- Architected a GTM-based analytics architecture with dataLayer automation and an N8N pricing pipeline integrating the course database with Google Sheets — improving attribution accuracy by 35% and eliminating manual pricing errors across all managed institutions.

EBANX (Brazil, Remote)
Software Engineer (Mid-Senior)
Sep 2020 – Jun 2022

- Built a modular React + Tailwind component system with CI/CD pipelines (Docker, GitHub Actions, AWS), cutting promotional landing page delivery time by 32%.
- Reduced bug rate by 45% and increased component reusability by building a Storybook-documented React framework supporting dynamic variations for marketing campaigns.
- Achieved 28% improvement in LCP and TBT (PageSpeed Insights) via Next.js SSR and image optimization, while improving marketing reporting accuracy by 40% through GTM dataLayer automation.

Personal Projects & Freelance
Senior Full-Stack Engineer
Jan 2018 – Present

- Leading a website renovation for a real estate developer (Astro, React, Cloudflare Pages, Neon PostgreSQL), featuring an AI-powered assistant and a custom real estate rentability calculator.
- Built "DevFactory," an AI-orchestrated, multi-agent software factory powered by the Vercel Workflow SDK — featuring a dynamic Complexity Router and a BYOK (bring-your-own-key) model architecture for automated, cost-optimized code generation.
- Developed "Ghiberti UI," an open-source design-system monorepo (Turborepo, pnpm, Style Dictionary v4), an AI Code Reviewer powered by Groq, and a suite of AI-powered career tools — DevInterviewLab (Next.js 15, Supabase, Groq) and Interview Command Center (React 19, Vite, Claude API).
- Developed "Finanças do Casal" (React, Vite, Supabase), a couples finance app with JWT-secured row-level security, and freelance web applications averaging 93+ on PageSpeed Insights — achieving up to 28% conversion uplift.

EDUCATION

University of Campinas — UNICAMP (Top 10 Latin America, QS Rankings)
Postgraduate Specialization in Software Engineering, 2025
IGTI / XP Educação (Brazil)
MBA in Full Stack Development, 2020
Mauá Institute of Technology (Brazil)
BSc in Control and Automation Engineering, 2014

LANGUAGES

English: Full professional proficiency (C1)
Portuguese: Native
Spanish: Basic (A2)
