

FERNANDO GIBERTI

Senior Full-Stack Engineer — React · Next.js · Node.js · TypeScript

Location: Vinhedo, São Paulo – Brazil | **Phone:** (11) 99618-6115 | **Email:**

ghiberti85@gmail.com | **LinkedIn:** <https://linkedin.com/in/fernando-ghiberti>

SUMMARY

Senior Full-Stack Engineer and Frontend Tech Lead with 8+ years building scalable web applications and leading front-end architecture, design systems, and engineering teams. Deep expertise in React, Next.js, Node.js, TypeScript, and AI-assisted development — delivering 38% faster load times, 27% higher conversion, and 50% faster component delivery via a React design system. Proven track record driving technical roadmaps, code reviews, hiring, and mentoring in agile environments.

SKILLS

Front-End: React.js · Next.js · TypeScript · Tailwind CSS · Styled Components · Storybook · Redux · Zustand · Context API · Vite · React Query

Back-End: Node.js · Nest.js · Prisma · PostgreSQL · MongoDB · GraphQL · REST API · JWT · Redis · Clean Architecture · SOLID

AI & Automation: LLM Integration (OpenAI · Claude · Groq) · Multi-Agent Pipelines · AI-Assisted Development · N8N Automation

Testing & QA: Jest · Cypress · Lighthouse CI

DevOps & Infrastructure: GitHub Actions · Docker · AWS (S3, CloudFront) · Vercel · Cloudflare Pages · CI/CD · Azure DevOps · Turborepo

Leadership & Practices: Tech Leadership · Mentoring · Code Review · Technical Roadmap · Hiring & Performance Management · Agile/Scrum · Kanban · Accessibility (ARIA) · System Design

PROFESSIONAL EXPERIENCE

+A EDUCAÇÃO (Brazil, Remote)

Senior Full-Stack Engineer & Tech Lead

Aug 2022 – Jun 2026

- Drove CMS platform migration from HubSpot to Duda, delivering 50%+ reduction in annual tooling costs, improving performance and marketing team autonomy across 22 websites.
- Architected a React + Tailwind Design System with 80+ reusable components in a Turborepo monorepo, documented in Storybook, accelerating landing page delivery by 42% across 22 marketing websites.
- Achieved 38% improvement in LCP — reaching Core Web Vitals green tier — via Next.js SSR, Tailwind CSS optimization, lazy loading, and static asset delivery via AWS S3 + CloudFront CDN.
- Led and grew a frontend team from 3 to 5 engineers across platforms handling 10M+ annual visits and driving thousands of enrollments for major higher education institutions in Brazil, owning technical roadmap, code reviews, 1:1s, career development, engineering guidelines, and participation in hiring and performance management decisions.
- Engineered high-conversion form flows with React, Formik, Yup, and Axios — increasing conversion by 27% and reducing abandonment by 25% — and built React dashboards

integrating Google PageSpeed and LLM APIs for automated SEO and accessibility auditing.

- Architected a GTM-based analytics architecture with dataLayer automation and an N8N pricing pipeline integrating the course database with Google Sheets — improving attribution accuracy by 35% and eliminating manual pricing errors across all managed institutions.

EBANX (Brazil, Remote)

Software Engineer (Mid-Senior)

Sep 2020 – Jun 2022

- Architected a modular React + Tailwind component system with CI/CD pipelines (Docker, GitHub Actions, AWS), cutting promotional landing page delivery time by 32%.
- Reduced bug rate by 45% and increased component reusability by building a Storybook-documented React framework supporting dynamic variations for marketing campaigns.
- Achieved 28% improvement in LCP and TBT (PageSpeed Insights) by adopting Next.js SSR, WebP image optimization, and lazy loading on critical pages.
- Improved marketing reporting accuracy by 40% by architecting dataLayer automation and real-time event tracking via Google Tag Manager.

Full-Stack Developer (Personal Projects & Freelance)

Jan 2018 – Present

- Built "DevFactory," an AI-orchestrated, multi-agent software factory powered by the Vercel Workflow SDK — featuring a dynamic Complexity Router and a BYOK (bring-your-own-key) model architecture for automated, cost-optimized code generation.
- Developed "Ghiberti UI," an open-source design-system monorepo (Turborepo, pnpm, Style Dictionary v4), and an AI Code Reviewer powered by Groq for automated static code analysis.
- Built a suite of AI-powered career tools — DevInterviewLab (Next.js 15, Supabase, Groq) and Interview Command Center (React 19, Vite, Claude API) — plus "Finanças do Casal" (React, Vite, Supabase), a couples finance app with JWT-secured row-level security.
- Built freelance web applications averaging 93+ on PageSpeed Insights, leveraging Next.js, React Query, Tailwind CSS, JSON-LD structured data, and AWS S3 + CloudFront for static hosting and global asset delivery — achieving up to 28% conversion uplift.

EDUCATION

University of Campinas — UNICAMP (Top 10 Latin America, QS Rankings)

Postgraduate Specialization in Software Engineering, 2025

IGTI / XP Educação (Brazil)

MBA in Full Stack Development, 2020

Mauá Institute of Technology (Brazil)

BSc in Control and Automation Engineering, 2014

LANGUAGES

English: Full professional proficiency (C1)

Portuguese: Native

Spanish: Basic (A2)
